FOREWORD

The provision of quality education and training is fundamental to the government's overall strategy for social economic development. Quality education and training will contribute to achievement of Kenya's development blueprint and sustainable development goals.

Reforms in the education sector are necessary for the achievement of Kenya Vision 2030 and meeting the provisions of the Constitution of Kenya 2010. The education sector had to be aligned to the constitution and this resulted to the formulation of the Policy Framework for Reforming Education and Training (Sessional Paper No. 4 of 2016). A key feature of this policy is the radical change in the design and delivery of TVET training. This policy document requires that training in TVET be competency based, curriculum development be industry led, certification be based on demonstration of competence and mode of delivery allows for multiple entry and exit in TVET programmes.

These reforms demand that Industry takes a leading role in curriculum development to ensure the curriculum addresses its competence needs. It is against this background that this curriculum has been developed.

It is my conviction that this curriculum will play a great role towards development of competent human resource for the all sectors growth and sustainable development.

**PRINCIPAL SECRETARY, VOCATIONAL AND
TECHNICAL TRAINING,
MINISTRY OF EDUCATION**

easytvet.com

PREFACE

Kenya Vision 2030 aims to transform the country into a newly industrializing, “middle-income country providing a high-quality life to all its citizens by the year 2030.” Kenya intends to create a globally competitive and adaptive human resource base to meet the requirements of a rapidly industrializing economy through life-long education and training. TVET has a responsibility of facilitating the process of inculcating knowledge, skills and attitudes necessary for catapulting the nation to a globally competitive country, hence the paradigm shift to embrace Competency Based Education and Training (CBET).

The Technical and Vocational Education and Training Act No. 29 of 2013 and Sessional Paper No. 4 of 2016 on Reforming Education and Training in Kenya, emphasized the need to reform curriculum development, assessment and certification. This called for a shift to CBET in order to address the mismatch between skills acquired through training and skills needed by industry as well as increase the global competitiveness of Kenyan labour force.

TVET Curriculum Development, Assessment and Certification Council (TVET CDACC) in conjunction with human resources management Sector Skills Advisory Committee (SSAC), have developed this curriculum. This curriculum is designed and organized with an outline of learning outcomes; suggested delivery methods, training/learning resources and methods of

assessing the trainee's achievement. The curriculum is competency-based and allows multiple entry and exit to the course.

I am grateful to the council members, council secretariat, HRM SSAC, expert workers and all those who participated in the development of this curriculum.

**Prof. CHARLES M. M. ONDIEKI, PhD, FIET (K),
Con. EngTech.
CHAIRMAN, TVET CDACC**

ACKNOWLEDGMENT

This curriculum has been designed for competency-based training and has independent units of learning that allow the trainee flexibility in entry and exit. In developing the curriculum, significant involvement and support was received from various organizations.

I recognize with appreciation the role of the HRM Sector Skills Advisory Committee (SSAC) in ensuring that competencies required by the industry are addressed in the curriculum. I also thank all stakeholders in the human resource management sector for their valuable input and all those who participated in the process of developing this curriculum.

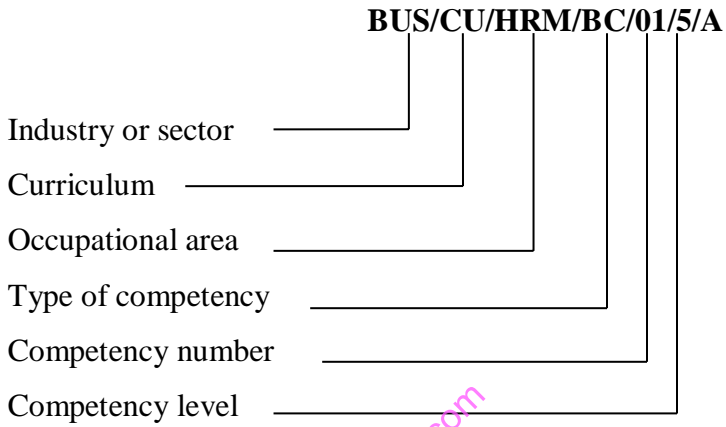

I am convinced that this curriculum will go a long way in ensuring that workers in Human Resource Management acquire competencies that will enable them to perform their work more efficiently.

Dr. LAWRENCE GUANTAI M'ITONGA, PhD.
COUNCIL SECRETARY/CEO
TVET CDACC

KEY TO UNIT CODE

COURSE OVERVIEW

Description of the course

The course is intended for human resource managers, interested persons and others who deal employees in one way or the other.

The course consists of basic and core units of learning as indicated below:

Basic Units of Learning

Unit Code	Unit Title	Durati on in Hours	Credit Factor
BUS/CU/HRM/BC /01/5/A	Communication Skills	25	2.5
BUS/CU/HRM/BC /02/5/A	Numeracy Skills	40	4
BUS/CU/HRM/BC /03/5/A	Digital Literacy	45	4.5
BUS/CU/HRM/BC 04/5/A	Entrepreneurial Skills	70	7
BUS/CU/HRM/BC /05/5/A	Employability Skills	50	5
BUS/CU/HRM/BC /06/5/A	Environmental Literacy	25	2.5
BUS/CU/HRM/BC /07/5/A	Occupational Safety and Health Practices	25	2.5
Total		280	28

Common Units of Learning

Unit Code	Unit Title	Duration in Hours	Credit factor
BUS/CU/HRM/C C/01/5/A	Human Resources Management	140	14
BUS/CU/HRM/C C/02/5/A	Managing Organization Behavior	70	7
Total		210	21

Core Units of Learning

Unit Code	Unit Title	Duration in Hours	Credit factor
BUS/CU/HRM/ CR/01/5/A	Employee Resourcing	50	5
BUS/CU/HRM/ CR/02/5/A	Learning and Development	50	5
BUS/CU/HRM/ CR/03/5/A	Performance Management	50	5
BUS/CU/HRM/ CR/04/5/A	Human Resource Budgets	50	5

Unit Code	Unit Title	Duration in Hours	Credit factor
/CR/07/5/A	Relations		
BUS/CU/HRM/ /CR/08/5/A	Manage Human Resource Information System (HRIS)	50	5
BUS/CU/HRM/ /CR/09/5/A	Undertake Employee Separation	50	5
Industrial Attachment		360	48
Total		810	93
Grand Total		1,300	131

The total duration of the course for an average trainee is 1,300 hours which is equivalent to 44 weeks at 30 hours of learning per week inclusive of 360 hours of field attachment.

Entry Requirements

An individual entering this course should have any of the following minimum requirements:

- a) Kenya Certificate of Secondary Education (KCSE) mean grade D (Plain)
- Or**
- b) Certificate in Human Resource Management Level 4
- Or**

- a) Equivalent qualifications as determined by Kenya National Qualifications Authority (KNQA)

Field attachment

An individual enrolled in this course will undergo a field attachment for a period of 12 weeks (360 hours) weeks in an organization

Assessment

The course will be assessed at two levels:

- a) **Internal assessment:** conducted continuously by the trainer (internal assessor) who is monitored by an accredited internal verifier
- b) **External assessment:** conducted by an accredited external assessor who is monitored by an accredited external verifier

The assessors and verifiers are accredited by TVET CDACC which also coordinates external assessment.

Certification

An individual will be awarded a Certificate of Competence on demonstration of competence in a unit of competency. To be awarded Certificate in Human Resource Level 5, an individual must demonstrate competence in all the units of competency.

These certificates will be awarded by TVET CDACC in conjunction with the training provider.

BASIC UNITS OF LEARNING

COMMUNICATION SKILLS

UNIT CODE: BUS/CU/HRM//BC/01/5/A

Relationship to Occupational Standards

This unit addresses the unit of competency: Demonstrate Communication Skills

Duration of Unit: 25 hours

Unit Description

This unit describes the competencies required to use specialized communication skills to meet specific needs of internal and external clients, conduct interviews, facilitate discussion with groups and contribute to the development of communication strategies.

Summary of Learning Outcomes

1. Meet communication needs of clients and colleagues
Contribute to the development of communication strategies
2. Conduct interviews
3. Facilitate group discussions
4. Making presentations

Learning Outcomes, Content and Suggested Assessment Methods

Learning Outcome	Content	Suggested Assessment Methods

NUMERACY SKILLS

UNIT CODE: BUS/CU/HRM/BC/02/5/A

Relationship to Occupational Standards:

This unit addresses the unit of competency: Demonstrate Numeracy Skills

Duration of Unit: 40 hours

Unit Description

This unit covers the competencies required to perform numerical functions. The person who is competent in this unit shall be able to: calculate with whole numbers and familiar fractions, decimals and percentages for work; estimate, measure, and calculate with routine metric measurements for work; use routine maps and plans for work; interpret, draw and construct 2D and 3D shapes for work; interpret routine tables, graphs and charts for work; collect data and construct routine tables and graphs for work; and use basic functions of calculator

Summary of Learning Outcomes

1. Calculate with whole numbers and familiar fractions, decimals and percentages for work
2. Estimate, measure and calculate with routine metric measurements for work
3. Use routine maps and plans for work
4. Interpret, draw and construct 2D and 3D shapes for work
5. Interpret routine tables, graphs and charts for work

6. Collect data and construct routine tables and graphs for work
7. Use basic functions of calculator

Learning Outcomes, Content and Suggested Assessment Methods

Learning Outcome	Content	Suggested Assessment Methods
1. Calculate with whole numbers and familiar fractions, decimals and percentages for work	<ul style="list-style-type: none"> • Interpretation of whole numbers, fractions, decimals, percentages and rates • Calculations involving several steps • Calculation with whole numbers and routine or familiar fractions, decimals and percentages • Conversion between equivalent forms of fractions, decimals and percentages • Application of order of 	<ul style="list-style-type: none"> • Oral • Written • Practical test • Observation

Learning Outcome	Content	Suggested Assessment Methods
	<p>operations to solve multi-step calculations</p> <ul style="list-style-type: none"> • Application of problem solving strategies • Making estimations to check reasonableness of problem solving process, outcome and its appropriateness to the context and task • Use of formal and informal mathematical language and symbolism to communicate the result of a task 	
2. Estimate, measure and calculate with routine metric measurements for work	<ul style="list-style-type: none"> • Selection and interpretation of measurement information in workplace tasks and texts 	<ul style="list-style-type: none"> • Oral • Written • Practical test • Observation

Learning Outcome	Content	Suggested Assessment Methods
	<ul style="list-style-type: none"> • Identification and selection of routine measuring equipment • Estimation and making measurements using correct units • Estimation and calculation using routine measurements • Performing conversions between routinely used metric units • Using problem solving processes to undertake tasks • Recording information using mathematical language and symbols 	
3. Use routine maps and plans for work	<ul style="list-style-type: none"> • Identification of features in routine maps and plans • Symbols and keys used in routine 	<ul style="list-style-type: none"> • Oral • Written • Practical test • Observation

Learning Outcome	Content	Suggested Assessment Methods
	<p>maps and plans</p> <ul style="list-style-type: none"> • Identification and interpretation of orientation of map to North • Demonstrate understanding of direction and location • Apply simple scale to estimate length of objects, or distance to location or object • Give and receive directions using both formal and informal language 	
4. Interpret, draw and construct 2D and 3D shapes for work	<ul style="list-style-type: none"> • Identify two dimensional shapes and routine three dimensional shapes in everyday objects and in different orientations • Explain the use and application of shapes 	<ul style="list-style-type: none"> •

Learning Outcome	Content	Suggested Assessment Methods
	<ul style="list-style-type: none"> • Use formal and informal mathematical language and symbols to describe and compare the features of two dimensional shapes and routine three dimensional shapes • Identify common angles • Estimate common angles in everyday objects • Use formal and informal mathematical language to describe and compare common angles • Use common geometric instruments to draw two dimensional 	

Learning Outcome	Content	Suggested Assessment Methods
	shapes <ul style="list-style-type: none"> • Construct routine three dimensional objects from nets 	
5. Interpret routine tables, graphs and charts for work	<ul style="list-style-type: none"> • Identify routine tables, graphs and charts in predominately familiar texts and contexts • Identify common types of graphs and their different uses • Identify features of tables, graphs and charts • Locate specific information • Perform calculations to interpret information • Explain how statistics can inform and persuade • Identify misleading 	<ul style="list-style-type: none"> • Oral • Written • Practical test • Observation

Learning Outcome	Content	Suggested Assessment Methods
	statistical information <ul style="list-style-type: none"> • Discuss information relevant to the workplace 	
6. Collect data and construct routine tables and graphs for work	<ul style="list-style-type: none"> • Identify features of common tables and graphs • Identify uses of different tables and graphs • Determine data and variables to be collected • Determine audience • Select a method to collect data • Collect data • Collate information in a table • Determine suitable scale and axes • Draft and draw graph to present information 	<ul style="list-style-type: none"> • Oral • Written • Practical test • Observation

Learning Outcome	Content	Suggested Assessment Methods
	<ul style="list-style-type: none"> • Check that data meets the expected results and context • Report or discuss information using formal and informal mathematical language 	
7. Use basic functions of calculator	<ul style="list-style-type: none"> • Identify and use keys for basic functions on a calculator • Calculate using whole numbers, money and routine decimals and percentages • Calculate with routine fractions and percentages • Apply order of operations to solve multi-step calculations • Interpret display and record result • Make estimations 	<ul style="list-style-type: none"> • Oral • Written • Practical test • Observation

Learning Outcome	Content	Suggested Assessment Methods
	<p>to check reasonableness of problem solving process, outcome and its appropriateness to the context and task</p> <ul style="list-style-type: none"> • Use formal and informal mathematical language and appropriate symbolism and conventions to communicate the result of the task 	

DIGITAL LITERACY

UNIT CODE: BUS/CU/HRM

/BC/03/5/A

Relationship to Occupational Standards

This unit addresses the Unit of Competency:
Demonstrate Digital Literacy

Duration of Unit: 45 hours

Unit Description

This unit describes competencies required to use a computer and other digital devices for the purposes of communication, work performance and management at the workplace.

Summary of Learning Outcomes

1. Identify computer software and hardware
2. Apply security measures to data, hardware, software in automated environment
3. Apply computer software in solving tasks
4. Apply internet and email knowledge in communication at workplace
5. Apply desktop publishing in official assignments
6. Prepare presentation packages

Learning Outcomes, Content and Suggested Assessment Methods

Learning Outcome	Content	Suggested Assessment Methods
1. Identify computer hardware and software	<ul style="list-style-type: none"> • Concepts of ICT • Functions of ICT • History of computers • Components of a computer • Classification of computers 	<ul style="list-style-type: none"> • Written tests • Oral presentation • Observation
2. Apply security measures to data, hardware and software	<ul style="list-style-type: none"> • Data security and control • Security threats and control measures • Types of computer crimes • Detection and protection against computer crimes • Laws governing protection of ICT 	<ul style="list-style-type: none"> • Written tests • Oral presentation • Observation • Project
3. Apply computer software in solving tasks	<ul style="list-style-type: none"> • Operating system • Word processing • Spread sheets • Data base design and manipulation • Data manipulation, storage and 	<ul style="list-style-type: none"> • Oral questioning • Observation • Project

ENTREPRENEURIAL SKILLS

UNIT CODE: BUS/CU/HRM /BC/04/5/A

Relationship to occupational standards

This unit addresses the unit of competency: Demonstrate Entrepreneurial Skills

Duration of unit: 70 hours

Unit description

This unit describes the competencies critical to demonstration of entrepreneurial capabilities. It involves, enhancing the entrepreneur's business skills, fostering a culture of continuous improvement at individual and organization level, implementing appropriate internal controls for profitability, improving employed capital base and undertaking regional/county business expansion.

Summary of Learning Outcomes

1. Develop business innovative strategies
2. Develop new products /markets
3. Expand markets and customers
4. Motivate staff/workers
5. Expand employed capital
6. Undertake regional/county business expansion

Learning Outcomes, Content and Suggested Assessment Methods

Learning Outcome	Content	Suggested Assessment Methods
1. develop business innovative strategies	<ul style="list-style-type: none"> • Business innovation strategies • Business growth • Monitoring and anticipating market trends • New technologies in entrepreneurship • Products and processes in entrepreneurship • Linkages with other entrepreneurs • Business conventions and exhibitions • Personal improvement and growth 	<ul style="list-style-type: none"> • Observation • Case studies • Individual/group assignments • Projects • Written • Oral
2. Develop new products /markets	<ul style="list-style-type: none"> • Feasibility study for new markets/products • Identifying sources and sellers of supplies 	

Learning Outcome	Content	Suggested Assessment Methods
	<ul style="list-style-type: none"> • Markets surveys 	
3. Expand markets and customers base	<ul style="list-style-type: none"> • Maintaining appropriate cash flow in the organization • Internal controls • Business break-even point • Business profitability determinants • Prudent purchases in an enterprise • Reducing business expenses • Good staff/workers and customer relations • Identifying and maintain new customers and markets • Product/ service promotions • Products / 	<ul style="list-style-type: none"> • Oral • Observation • Case studies • Individual/group assignments • projects • Written

EMPLOYABILITY SKILLS

UNIT CODE: BUS/CU/HRM /BC/05/5/A

Relationship to Occupational Standards

This unit addresses the Unit of Competency: Demonstrate employability skills

Duration of Unit: 50 hours

Unit Description

This unit covers competencies required to demonstrate employability skills. It involves conducting self-management, demonstrating interpersonal communication, critical safe work habits, leading a workplace team, planning and organizing work, maintaining professional growth and development, demonstrating workplace learning, problem solving skills and managing ethical performance.

Summary of Learning Outcomes

1. Conduct self-management
2. Demonstrate interpersonal communication
3. Demonstrate critical safe work habits
4. Lead small teams
5. Plan and organize work
6. Maintain professional growth and development
7. Demonstrate workplace learning
8. Demonstrate problem solving skills
9. Demonstrate workplace ethics

Learning Outcomes, Content and Suggested Assessment

Methods

Learning Outcome	Content	Suggested Assessment Methods

ENVIRONMENTAL LITERACY

UNIT CODE: BUS/CU/HRM/BC/06/5/A

Relationship to Occupational Standards

This unit addresses the unit of competency: Demonstrate Environmental Literacy

Duration of Unit: 25 hours

Unit Description

This unit describes the competencies required to control environmental hazard, control environmental pollution, comply with workplace sustainable resource use, evaluate current practices in relation to resource usage, identify environmental legislations/conventions for environmental concerns, implement specific environmental programs and monitor activities on environmental protection/programs.

Summary of Learning Outcomes

1. Control environmental hazard
2. Control environmental pollution
3. Demonstrate sustainable resource use
4. Evaluate current practices in relation to resource usage
5. Identify environmental legislations/conventions for environmental concerns
6. Implement specific environmental programs
7. Monitor activities on environmental protection/programs

Learning Outcomes, Content and Suggested Assessment Methods

Learning Outcome	Content	Suggested Assessment Methods
1. Control environmental hazard	<ul style="list-style-type: none"> • Purposes and content of Environmental Management and Coordination Act 1999 • Purposes and content of Solid Waste Act • Storage methods for environmentally hazardous materials • Disposal methods of hazardous wastes • Types and uses of Personal Protective Equipment (PPE) in line with environmental regulations • Occupational Safety and Health Standards 	<ul style="list-style-type: none"> • Written questions • Oral questions • Observation of work procedures
